

To whom it may concern,

Air1 radio station is a very important asset to me and my family. Air1 spreads good news and fantastic music to the local community and nationwide. Air 1 has been a peaceful, friendly and compassionate broadcast when I was going through a very rough time in my life. I feel completely secure my daughters will not be hearing rude, obnoxious, filthy language and noises when listening to Air1 which is the station that our radio's are tuned to 99% of our radio listening lives. Of the few truly moral and good things that we hear on this earth, I believe it would be detrimental to the community if Air1 were to be displaced by an LPFM broadcaster providing other programming. There are enough lewd, absolutely disgraceful noises in this world, if Air1 is displaced, a valuable asset on the air waves will be lost. In addition, I financially support this listener supported radio broadcast.

Sincerely,

Scott D. Hefely
